and the following is a summary of the results of the study:

The first group of patients, consisting of 100 cases, was treated with the standard method of treatment, which consisted of the use of the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The second group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The third group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The fourth group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The fifth group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The sixth group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The seventh group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The results of the study show that the standard method of treatment, which consisted of the use of the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The second group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The third group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The fourth group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The fifth group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The sixth group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The seventh group of patients, consisting of 100 cases, was treated with the following drugs:

1. Salicylic acid, 10 grains, three times a day.
2. Aspirin, 10 grains, three times a day.
3. Iodoform, 10 grains, three times a day.

The results of the study show that the standard method of treatment, which consisted of the use of the following drugs:

THE JOURNAL OF THE
ROYAL ANTHROPOLOGICAL INSTITUTE
1897
Vol. 27, Part 1
The Journal of the Royal Anthropological Institute is a quarterly publication devoted to the study of man and his development. It is the only English journal of its kind, and is read by all those who are interested in the progress of anthropology. The Journal is published by the Royal Anthropological Institute, which was founded in 1871, and is now one of the largest and most influential of the scientific societies in England. The Journal is edited by the President of the Institute, and is published in four parts each year. The first part of the year is devoted to the study of the physical characteristics of man, and the second part to the study of the mental characteristics of man. The third part of the year is devoted to the study of the social characteristics of man, and the fourth part to the study of the history of man. The Journal is a valuable source of information for all those who are interested in the progress of anthropology, and is a must-read for all students of the subject.

1890	1891
The first of the year was a very successful one for the library. The number of books received was 1,234, and the number of books loaned out was 1,567.	The second of the year was also a very successful one. The number of books received was 1,345, and the number of books loaned out was 1,678.
The third of the year was a very successful one. The number of books received was 1,456, and the number of books loaned out was 1,789.	The fourth of the year was a very successful one. The number of books received was 1,567, and the number of books loaned out was 1,890.
The fifth of the year was a very successful one. The number of books received was 1,678, and the number of books loaned out was 1,901.	The sixth of the year was a very successful one. The number of books received was 1,789, and the number of books loaned out was 2,012.
The seventh of the year was a very successful one. The number of books received was 1,890, and the number of books loaned out was 2,123.	The eighth of the year was a very successful one. The number of books received was 1,901, and the number of books loaned out was 2,234.
The ninth of the year was a very successful one. The number of books received was 2,012, and the number of books loaned out was 2,345.	The tenth of the year was a very successful one. The number of books received was 2,123, and the number of books loaned out was 2,456.
The eleventh of the year was a very successful one. The number of books received was 2,234, and the number of books loaned out was 2,567.	The twelfth of the year was a very successful one. The number of books received was 2,345, and the number of books loaned out was 2,678.
The thirteenth of the year was a very successful one. The number of books received was 2,456, and the number of books loaned out was 2,789.	The fourteenth of the year was a very successful one. The number of books received was 2,567, and the number of books loaned out was 2,890.
The fifteenth of the year was a very successful one. The number of books received was 2,678, and the number of books loaned out was 2,901.	The sixteenth of the year was a very successful one. The number of books received was 2,789, and the number of books loaned out was 3,012.
The sixteenth of the year was a very successful one. The number of books received was 2,890, and the number of books loaned out was 3,123.	The seventeenth of the year was a very successful one. The number of books received was 2,901, and the number of books loaned out was 3,234.
The seventeenth of the year was a very successful one. The number of books received was 3,012, and the number of books loaned out was 3,345.	The eighteenth of the year was a very successful one. The number of books received was 3,123, and the number of books loaned out was 3,456.
The eighteenth of the year was a very successful one. The number of books received was 3,234, and the number of books loaned out was 3,567.	The nineteenth of the year was a very successful one. The number of books received was 3,345, and the number of books loaned out was 3,678.
The nineteenth of the year was a very successful one. The number of books received was 3,456, and the number of books loaned out was 3,789.	The twentieth of the year was a very successful one. The number of books received was 3,567, and the number of books loaned out was 3,890.
The twentieth of the year was a very successful one. The number of books received was 3,678, and the number of books loaned out was 3,901.	The twenty-first of the year was a very successful one. The number of books received was 3,789, and the number of books loaned out was 4,012.
The twenty-first of the year was a very successful one. The number of books received was 3,890, and the number of books loaned out was 4,123.	The twenty-second of the year was a very successful one. The number of books received was 3,901, and the number of books loaned out was 4,234.
The twenty-second of the year was a very successful one. The number of books received was 4,012, and the number of books loaned out was 4,345.	The twenty-third of the year was a very successful one. The number of books received was 4,123, and the number of books loaned out was 4,456.
The twenty-third of the year was a very successful one. The number of books received was 4,234, and the number of books loaned out was 4,567.	The twenty-fourth of the year was a very successful one. The number of books received was 4,345, and the number of books loaned out was 4,678.
The twenty-fourth of the year was a very successful one. The number of books received was 4,456, and the number of books loaned out was 4,789.	The twenty-fifth of the year was a very successful one. The number of books received was 4,567, and the number of books loaned out was 4,890.

venport

The first of the new year brings with it a sense of renewal and hope. The medical profession has been through a year of great stress and strain, and now it is time to look forward to a new and brighter future. The American Medical Association has been working hard to improve the conditions of the medical profession, and we believe that our efforts will be rewarded in the coming year. We have been successful in many of our endeavors, and we are confident that we will continue to be successful in the future. We have been successful in securing the passage of the Medical Practice Act, which will give the medical profession the right to practice medicine without the interference of the state. We have also been successful in securing the passage of the Medical Education Act, which will give the medical profession the right to control the medical education of the future. These are great achievements, and we are proud of them. We are confident that they will lead to a better future for the medical profession and for the people of this country.

The second of the new year brings with it a sense of renewal and hope. The medical profession has been through a year of great stress and strain, and now it is time to look forward to a new and brighter future. The American Medical Association has been working hard to improve the conditions of the medical profession, and we believe that our efforts will be rewarded in the coming year. We have been successful in many of our endeavors, and we are confident that we will continue to be successful in the future. We have been successful in securing the passage of the Medical Practice Act, which will give the medical profession the right to practice medicine without the interference of the state. We have also been successful in securing the passage of the Medical Education Act, which will give the medical profession the right to control the medical education of the future. These are great achievements, and we are proud of them. We are confident that they will lead to a better future for the medical profession and for the people of this country.

The Moliere Bath,

330 Euclid Avenue.

These baths are now universally
conceded to be the best.

Separate and Elegant Apartments for Ladies.

ADVERTISEMENTS	1

The following is a list of the contents of the journal for the week ending May 1, 1914. The journal is published weekly by the American Medical Association, 535 North Dearborn Street, Chicago, Ill. The subscription price is \$5.00 per annum in advance. Single copies are sold at 15 cents. The journal is indexed and abstracted in the following publications: Index Medicus, Current Contents, and the Index to the Medical Literature of the United States.

The journal is a valuable source of information for the medical profession, and is read by thousands of physicians throughout the world. It contains the latest news and developments in the medical profession, and is a must-read for every physician.

The American Medical Association is a non-profit organization dedicated to the promotion of the health of the public. It is the largest and most influential of the medical organizations in the United States, and is recognized by the federal government as the official representative of the medical profession.

The association's primary concern is the improvement of the medical profession and the health of the public. It does this by advocating for the highest standards of medical practice, by promoting the education and training of medical students, and by working to eliminate the barriers to medical care for the poor and the sick.

The association's efforts have been instrumental in the development of the medical profession in the United States, and it continues to work hard to improve the health of the public. The journal is a testament to the association's commitment to the medical profession and to the health of the public.

J. WILLEY SMITH,

NO. 234 SUPERIOR STREET,

(Sign of Crystal Prismatic Mortar,)

Dealer in

PURE DRUGS,

FRENCH, ENGLISH AND AMERICAN

Chemicals Chemists' Glassware

THERMOMETERS, &c.

A PRESCRIPTION DEPARTMENT

Has long been a feature of the business, but in its present enlarged and perfected condition, is second to none in the city.

Prescriptions will at all times have the personal attention of a Graduate of Pharmacy of twelve years' practical experience.

"Purity of Drugs, and Accuracy in Compounding,"

IS OUR MOTTO.

Toilet and Fancy Goods,

Of Every Description.

Pure Wines and Liquors, Cigars, &c.

Cleveland Dental and Surgical Depot.

J. WILLEY SMITH,

Successor to EDWIN SMITH & SON,

234 SUPERIOR STREET.

(Sign of Crystal Prismatic Mortar.)

THE ONLY COMPLETE STOCK OF

Dental and Surgical Instruments

IN NORTHERN OHIO.

Having greatly enlarged my Dental Department, I am prepared to furnish at lowest rates all material used by the profession, including Office Furniture and complete sets of Instruments.

"ALL ABOUT PATENTS."—Our book of 100 pages, containing instructions for obtaining patents in the United States and Foreign Countries, Digests of the Patent Laws of this country, Great Britain, Germany, Canada, etc., Blank forms, and much information of value to the inventor sent free for stamp, or on application at our office.

— OFFICES. —

EUCLID AVENUE BLOCK,
NEAR THE PARK,
CLEVELAND, O.

519 SEVENTH STREET,
WASHINGTON, D. C.

Branches: Toronto, Canada; London, England.

CAN I PATENT MY INVENTION?

THE first question after an invention is perfected is as to the probability of its conflicting with a prior patent, and is one of considerable interest to the inventor. In most cases we can give the desired information by a simple examination of the claims; in others an extended research is necessary, especially if the invention belongs to a class in which there have been a large number of patents granted. We are pleased to give opinions as to the patentability of inventions, without charge, and if an extended preliminary examination is rendered necessary, we will have it made, the cost being from \$2.00 to \$5.00, according to the amount of time required.

MODELS.

If the decision is favorable, and the inventor concludes to apply for a patent it will be necessary to construct a model, twelve cubic inches in size, showing the essential points of novelty in the invention. A working model is always desirable, but it is not necessary to show in a model an entire machine, unless requisite to explain the working of the improved parts. When completed, the model, accompanied by a description, particularizing the portions claimed as new, and on which the patent is desired, should be brought or sent to our office. On the payment of the first government fee of \$15.00, we will proceed to draw up the papers, and when completed send them to our client for signature. Our fee of \$20.00 is then due, and should be returned with the papers to insure immediate filing. The papers, being properly signed and attested, are sent with the model to our Washington office, and from there filed in the Patent Office. Here they are taken up in regular order by the Examiner who cites references, if any prior patents are found which conflict with the claims of our client's application; and

we are thus enabled to so re-construct or amend the claims as to obtaining an acknowledgement of the claims sought to be secured. Skillful men of many years practical experience are employed in this work, and it is impossible to do more than we do for our clients.

ALL THIS IS DONE IN WASHINGTON,

and avoids the delay and inconvenience incident to conducting cases by correspondence, which is the plan pursued by a class of solicitors who thus offer low figures, but unsatisfactory work as a return. Our fees are as low as they can be, in consideration of the attention and labor each case receives.

When we have obtained the "allowance" of the patent, we inform our client of the fact, and he can then take out his papers by the payment of \$25.00, \$20.00 of which is the government fee, and \$5.00 the balance of our fees. These charges include all expenses, and make the entire cost \$60.00 to obtain a patent, though in some instances, where the invention is very simple, they are subject to a reduction of ten per cent.

In applications for patents on Designs, Trade Marks and Labels, and in filing Caveats, Copy-rights, etc., the proceedings are similar, being modified to suit the particular case. Our 100 page book of instruction,

"ALL ABOUT PATENTS,"

gives all necessary instruction and information in regard to these and other matters, and will be sent to any address on application at either our Cleveland or Washington office.

We are always happy to furnish any information in regard to patents that may be asked, provided postage stamps are inclosed in the letter of inquiry, but we must decline to answer questions of purely personal interest to the writers, and which involve trouble and expense to us. Such letters are consigned to the waste basket. All communications and business entrusted to our care will be kept *strictly confidential*. We refer with the utmost confidence to all our clients, believing that we have given satisfaction in every instance.

Our charges for procuring Copy-rights, Labels, Designs, Trade Marks, etc., are as low as is consistent with the most thorough and accurate work, and will be furnished on application.

FOREIGN PATENTS.

We have Canadian and English branches through which our facilities for taking out patents in Canada, Great Britain and all European countries are unsurpassed.

INTRODUCING PATENTS.

The negotiation of patents is not a part of our business, and the sale of "PATENT RIGHTS" we do not undertake, but we have correspondence with responsible firms engaged in the business, and through them, and by means of introduction to manufacturing concerns and capitalists, we have frequently promoted very remunerative sales of patents. We are always pleased to assist inventors in this way, and if the invention is of value can generally promote an early sale.

We make it a rule that the interests of those dealing with us are our interests, and act accordingly.

SILVERTYPE PORTRAITS.**THE SILVERTYPE PORTRAIT.**

Don't forget that at the Branch Office of H. P. Moore's extensive and popular Art Gallery, Room 5 Euclid Avenue Block, you can secure a Silvertype Portrait enlarged from any small likeness and painted by experienced artists. This beautiful and popular picture invented and made only by H. P. Moore, has a reputation of eight years, and for durability, beauty of finish and life-like correctness the Silvertype has no peer. Thirty thousand of our patrons endorsed the above statement last year. We also furnish Photograph Copies in any size or style of finish, India Ink, Crayon, Pastel, Oil or Water Colors on shorter notice and better terms than any other gallery in the United States or Canadas. Ladies or Gentlemen who may desire an elegant Portrait in any of the above styles will find our work as represented. Orders sent by mail promptly filled. A liberal discount made to clubs and parties sending 12 or more orders. Please call at our office, or address with stamp, J. F. TALLANT & CO., Room 5 Euclid Avenue Block.

STREET AND AVENUE GUIDE.

EXPLANATION.

On referring to this Directory, it will be noticed that the names of streets, avenues, etc., follow each other in strictly alphabetical order, without regard to location. To all the *more important* streets and avenues are subjoined the names and numbers of intersecting streets, avenues, etc., in the order in which they occur, so that if you wish to find, say No. 823 St. Clair, by reference to the Guide you will find that St. Clair crosses Case av., at No. 816 and Lyman at No. 840, hence, the place you seek is between these two numbers, and nearest to Case av. The dash indicates that the corner is not numbered, is vacant, or occupied by a church or school house. In locating the small, obscure or most distant streets, pains have been taken to give the line of street cars or omnibuses by which they can be most easily reached.

STREETS, AVENUES AND ALLEYS.

A. from Brookside av. east to B st., 14th ward. Woodland av. cars to Willson av.	ADOLPHA, (late Avon), at north end of Hamlet, 14th ward. Broadway cars to Ham- let.
